

AV, Production and Lighting

Duration:	Any
Guest Numbers:	Any
Requirements:	Dependant on guest numbers and set size

Large equipment sets, technical requirements and industry jargon may make booking AV, production or lighting seem a daunting task. With many years experience with AV specialists, we will work with you to arrange both the technical and logistical requirements surrounding the event both prior to set up and on the day.

Be it a breathtaking backdrop to your conference or a highly technical media hub, we have the complete package solution for you.

Highly visual, AV, production and lighting provide an instant impact and are largely considered a vital element to any conference or event. Be it projection for your key messages and awards, audio for speakers or lighting for your products, the options are endless in this extensive field. Options include:

- Simple PA systems, screens and projection
- Creative conference concepts and production
- Full sound, lighting and show production
- Awards, Conferences, Dinners, Meetings, Product Launches etc

We can provide you with a complete production package including engineers to ensure smooth running on the day leaving you to focus your energy on the rest of your conference. From small boardroom meetings to large conferences and awards we will strive to meet both your requirements and budget.
