Be it atmospheric background music from classical or jazz musicians, or invigorating beats from a band of your choice, no evening is complete without an injection of music.

Add that special finishing touch to your evening by selecting a band, artiste or entertainer handpicked to fit your budget and your style of event. Be it a solo star or a fully-fledged function band we are sure to have the best in the business.

Why not add a tribute band to your theme night or add a touch of class with our Tenors for that special occasion. The options are endless.

Riders and large equipment sets may make booking bands and entertainers seem a daunting task. We have many years experience with performers and their agents, and fully understand both their professional requirements and the logistics surrounding their performance both on and off stage.

Let us take the strain as you hit the dance floor or sit back and relax, enjoying all your hard work and reaping the complements.
