

Fruits of the Vine Wine Tasting

- Duration:** 60 to 150 minutes
- Guest Numbers:** 10 - 300
- Requirements:** Sufficient space for a table plus chairs for each team. Usually around the dining

Whether you are a wine connoisseur or a relative novice, this dip into the fascinating and rich world of wine will leave your taste buds wanting more!

Hosted by our own resident Wine and Spirit specialist this engaging pre-dinner event allows guests to sample and enjoy popular wines from around the world. Eyeballing, swirling, sniffing and swishing will all become second nature as you attempt to identify the bouquet, the after-taste and even the colour of the fabulous selection on offer!

Using almost a quarter of a century of full-time experience within the Wine Trade, your professional compère kicks off the evening by providing a brief incite into the joys of wine and traditional wine tasting techniques. Whilst full of information, the introduction is accessible, relaxed and sociable.

Enthused, your guests will then blind sample six wines from both the old and new world, and using their new found knowledge, will work in teams to establish the country of origin, the grape and the suggested price of each wine! The team with fewest errors wins!
