- Guest Numbers:** 10 - 200
- Requirements:** Dependant upon guest numbers
- Learning Outcomes:**
- ✓ Planning and Problem Solving
 - ✓ Creative Thinking
 - ✓ Use of Resources
 - ✓ Teamwork

'Race to Success' is a fantastic, fun filled indoor event designed to challenge teams to work together to successfully complete a project.

Involving elements of innovation, creativity, money management and 'driving' skill – each guest will find an area to excel in!

From an initial budget, teams will calculate how much to spend on creating their own team kit car, the method of propulsion and power, type of wheels and frame and last but not least the accessories!

Each team then builds a human powered vehicle in which team members compete in various races to test their driving skills! But before your ultimate dream machine can hit the track, your vehicle must pass its MoT.

The event is based around simple mechanics. Using very simple construction techniques the teams require no automotive or engineering skills.
