

Spy Academy

- Duration:** 90 to 180 minutes
- Guest Numbers:** 10 - 180
- Requirements:** Indoor and outdoor space required

This is your chance to be spies for the day, pitting your minds, imagination, knowledge and cunning against enemy agents in order to survive. Each team is issued with 'TOP SECRET' background information and a blank 'code breaker' key.

Intelligence, skill and luck are required to successfully complete the mix of indoor and outdoor activities contained within the 3 zones: Mental, Physical and Sniper.

Success in the training challenges will result in the teams being rewarded with letters to add to their code breaker and the more letters the teams win throughout their training, the easier their final mission will become. Spy Academy is designed for maximum participation with little physical demands enabling all guests to enjoy the activities provided. But be warned – cunning, subterfuge and secrecy are vital skills if you want to earn your place amongst the elite.

Then with all challenges complete and the letters gathered, teams will be given a top secret encoded message to decipher using their code breaker. With the clock counting down, the first team to crack the code and unscramble the message will graduate from the Academy and be presented with their official 'Secret Agent' Medals of Honour!
