VIDEO

Have you been asked to think of something unique to bring to this year's conference? The 'Team Ice Challenge' is a great teambuilding session with the versatility to be used as either a fun break out session or a fully involved event.

Providing a unique environment for guests to communicate and bond, this hands-on event involves flair and precision. After an inspirational demonstration from our resident professional, teams will have the opportunity to 'try their hands' at carving a masterpiece ice sculpture!

Using the carving kits provided, including chisels, leather gloves and goggles, teams must follow the directions given by the instructors to successfully carve their very own creation.

An event with a difference, Ice Sculpting provides a fully bespoke experience that challenges individuals to observe and retain information - then use their acquired knowledge in a creative and productive way with instant visual results.

INTERESTING ICE FACT – AWARD WINNING

One of our sculptors in team GB was crowned champion at the international Tatry competition in Slovakia.

“Would like to say a big THANK YOU, to you and your team for organising the Ice Sculpting event. It was great fun and enjoyed by all (can't always say that!)” Costa Coffee
