About KDM Events

Launched in 1990 to tap into the burgeoning Corporate Events market, KDM Events have evolved considerably over the past 3 decades in business – from humble beginnings when events solely consisted of driving vehicles around a muddy field, to the all encompassing event management company that we are today.

Catering for groups numbering from half a dozen to several hundred or thousand, we offer the full range of event services – which could be as straight-forward as just finding a venue for a meeting or providing a stand of archery for a small group, to as complex as a fully managed conference for large numbers where we source the venue, provide the AV, suggest speakers, assist with registration & rooming lists, provide theming & entertainment for the evening... the list goes on!

• Unrivalled reputation in the industry, for quality, service and dependability – which has been earned over the past 30 years and counting.

• These aren't just empty words, but are backed up by our Gold Award for "Best Event Provider" at the prestigious M&IT Awards in 2017, 2018, 2019 and 2020 – these awards are voted for only by clients and members of the events industry.

• We are highly professional, passionate, friendly and do not make empty promises – our goal is to always over-deliver, by using our experience and expertise to shoulder the stresses in delivering a memorable event for you.

Established in 1990

Voted the UK's "Best Event Provider"

Meetings, conferences and road shows

Team Building, theming and entertainment

We always deliver memorable events

Charity Team Building Events Delivering Real Impact

Flying Start gives students access to the technology that is shaping tomorrow's world. Drones are transforming the future and this experience puts your team right at the heart of it. It brings STEM subjects to life and by donating educational drones, your team helps bridge the digital skills gap and inspires the next generation of innovators.

Why Choose Charity Team Building Events?

- Increase team engagement, communication and collaboration
- Create meaningful connection while delivering measurable social impact
- Strengthen a purpose-driven company culture
- Deepen employee satisfaction through emotionally engaging experiences

More Than Just Team Building Events

Bring your team together with exciting charity team building events that combine innovation, collaboration and meaningful social impact. Teams take part in interactive drone challenges that test communication, creativity and problem-solving skills in a fun, fast-paced environment.

As part of these engaging charity team building activities, fully functional educational drones are donated to schools and youth clubs, helping young people access hands-on learning in coding, science, engineering and digital technology.

A unique CSR experience that delivers teamwork, purpose and lasting community impact.

How it works

Teams will build and fly their own educational drones in approximately 2.5 hours, though the timing can be adjusted to suit your event. The session begins with a group briefing and a short presentation from the recipient school or charity, highlighting how the donated drones will be used to support STE(A)M education for young people. (You can select your own recipient if preferred).

Each team is assigned a dedicated workshop area, fully equipped with tools, build instructions and a troubleshooting helpdesk to ensure safety and quality throughout the activity. To earn the parts needed to construct their drone, teams will take part in a series of tech-inspired challenges. Roles are allocated within each team to manage the build and flight preparations.

Once assembled and quality checked, teams will move to the flying zone to test their drone in an exciting finale. Can your team fly their drones through an obstacle course and safely land in the designated area!

Challenges

On Top of the World

Satellite Imagery Spot the Difference – Teams explore marine biology and monitor endangered species. Explore rainforests and different types of terrain and learn first-hand how scientists are using drones in environmental work.

The Enigma Code

Here you'll need to decipher the hidden messages and clues. This gives access to password protected folders which contain the code that needs to be flashed to the drone and remote control, to operate successfully.

Search and Rescue

Complete a riddle before embarking on a journey of discovery with only your team mates to guide you.

INsync

In this challenge you will have to coordinate with your team to move precious cargo.

How to book

The booking process is very straight-forward – the basic details that we need to know are the date, venue, number of guests and your chosen event or activity – and we are then able to issue a contract for you to complete your booking.

Once this contract has been returned this confirms the booking of your event, we then issue an invoice for a 25% deposit with the balance due 7 days prior to the event date.

We try our upmost to be flexible when the need arises, so preferential payment terms can be considered and are available for clients that we work with on an agreed Preferred Supplier basis – this also gives the option to consolidate your invoices, by payment of any venue costs also through KDM Events.

The option of payment via credit card is also available should this be easier for you, although a surcharge of 3% applies for payment made via corporate credit cards.

We always greatly prefer to speak with you before an event so that we can get a clear picture of your aims and objectives... so please do contact us for any queries that we can help with.
