About KDM Events

Launched in 1990 to tap into the burgeoning Corporate Events market, **KDM Events** have evolved considerably over the past 3 decades in business – from humble beginnings when events solely consisted of driving vehicles around a muddy field, to the all encompassing event management company that we are today.

Catering for groups numbering from half a dozen to several hundred or thousand, we offer the full range of event services – which could be as straight-forward as just finding a venue for a meeting or providing a stand of archery for a small group, to as complex as a fully managed conference for large numbers where we source the venue, provide the AV, suggest speakers, assist with registration & rooming lists, provide theming & entertainment for the evening... the list goes on!

- Unrivalled reputation in the industry, for quality, service and dependability – which has been earned over the past 30 years and counting.
- These aren't just empty words, but are backed up by our Gold Award for "Best Event Provider" at the prestigious M&IT Awards in 2017, 2018, 2019 and 2020 – these awards are voted for only by clients and members of the events industry.
- We are highly professional, passionate, friendly and do not make empty promises – our goal is to always over-deliver, by using our experience and expertise to shoulder the stresses in delivering a memorable event for you.

Established in 1990

Voted the UK's "Best Event Provider"

Meetings, conferences and road shows

Team Building, theming and entertainment

We always deliver memorable events

Student Buddy

At the beginning of the session guests will receive a powerful educational presentation to help them better understand energy poverty and the effects it has on people around the world.

In teams of 4, participants will collaborate to assemble a ground breaking energy and digital access solution (a Student Buddy). Our expert event managers will guide the group on the build and assembly of the units. Then, importantly, all guests will be able to connect with a child living in energy poverty via a hand written letter of encouragement. All letters are packaged as a gift with the devices.

What is this device? A StudentBuddy is a sophisticated and powerful lightweight solar system incorporating USB charging capabilities. This provides safe, clean, sustainable lighting that will transform lives! Get your team to 'power up' as you are taken on a journey that addresses energy poverty and be involved in the important social aspect of helping to tackle this global issue through this team activity.

Empower Your Team and Make an Impact with Our Sustainable Development Event

Join us for an inspiring event aligned with the United Nations Sustainable Development Goals (UNSDG) – a great opportunity for companies dedicated to community support and meaningful social impact. This immersive experience educates teams on the issue of energy poverty and highlights their potential to contribute to real-world solutions.

Event Highlights:

- **Educational Session:** Begin with a powerful presentation on global energy poverty, exploring its far-reaching effects and the role your team can play in creating change.
- **Hands-On Collaboration:** Working in teams of four, participants will assemble a transformative “StudentBuddy” device—a solar-powered solution for safe, sustainable lighting and USB charging. This device offers digital and energy access to communities in need.
- **Personal Connection:** Each team will connect with a child impacted by energy poverty through a handwritten letter of encouragement, packaged along with the device to brighten both their day and future.
- **Global Reach:** Once assembled, all devices undergo quality checks and are then distributed by our NGO partners to communities in countries such as Cambodia, Kenya, and Madagascar.

This unique experience not only fosters team spirit but also leaves a lasting positive impact by bringing light and learning resources to those who need them most.

Positive Social Contribution Through Teamwork and Collaboration

Since launching in 2016, SolarBuddy has gifted hundreds of thousands of solar lights, illuminating the lives of nearly 1 million people across 19 different countries.

Each Student Buddy device combines robust durability, modular flexibility, and sustainable technology into a highly adaptable design that meets the needs of communities in a practical and impactful way. Crucially the device also doubles as a USB charging port, which is incredibly beneficial when it comes to powering mobile devices and multiple other forms of modern technology – which the fortunate amongst us take for granted, but can be a real hardship for those living in remote and/or disadvantaged communities.

What's Included:

- Delivery of unassembled Student Buddy kits
- Educational presentation and facilitation of the event from start to finish
- Collection of assembled Student Buddy lights and written letters
- Quality control of Student Buddy devices
- International shipment of Student Buddy devices and personalised letters to a country in energy poverty
- Distribution of Student Buddy devices and letters into the hands of children living in extreme energy poverty through our in-country NGO partner

How to book

The booking process is very straight-forward – the basic details that we need to know are the date, venue, number of guests and your chosen event or activity – and we are then able to issue a contract for you to complete your booking.

Once this contract has been returned this confirms the booking of your event, we then issue an invoice for a 25% deposit with the balance due 7 days prior to the event date.

We try our utmost to be flexible when the need arises, so preferential payment terms can be considered and are available for clients that we work with on an agreed Preferred Supplier basis – this also gives the option to consolidate your invoices, by payment of any venue costs also through KDM Events.

The option of payment via credit card is also available should this be easier for you, although a surcharge of 3% applies for payment made via corporate credit cards.

We always greatly prefer to speak with you before an event so that we can get a clear picture of your aims and objectives... so please do [contact us](#) for any queries that we can help with.
